

## **EXHIBIT 5**

### **Managerial and Technical Experience**

Zoom-i-Net is a switchless resale common carrier providing intrastate long distance message toll telecommunications services to customers for their direct transmission and reception of voice, data and/or other types of communication. These long distance services are provided through local exchange and/or other connecting carriers. Applicant leases the underlying facilities necessary to provide telecommunications services from major facilities-based interexchange carriers, such as Qwest, MCI WorldCom, Global Crossing, and WilTel. Applicant has an experienced management team, but relies on its underlying carriers for technical support.

Zoom-I-Net is a new entrant based in New York. It was founded in 1999, and has consulted and advised on services within the telecommunications industry, including the provision of interexchange toll and local exchange resale services, customer service operations, and sales and marketing of communications services. Zoom-I-Net's key personnel include C.K. Carney, Cardinal Southwell, David McAuley and Louis Neri.

Ms. Carney is Zoom-I-Net's founder and current president. She has managed the company's operations since its inception and is responsible for leading the company to position itself to become an operating entity. Ms. Carney has held a variety of positions in various businesses, including food distribution, insurance, and telecommunications. Her business experience includes management positions with supervisory authority in internal account management, customer billing and customer service, staff supervisions and scheduling, bookkeeping and regulatory liaison with local compensation boards and state utility commissions. To compliment her managerial and accounting expertise, Ms. Carney has gathered a team of experts on the provisioning of telecommunications

services and facilities. Ms. Carney is well-qualified to manage Zoom-I-Net's entry into the interexchange markets.

Mr. Southwell is Zoom-I-Net's Acting Divisional Manager for Operations. He will be responsible for the technical aspects of the company's telecommunications services. Mr. Southwell has extensive experience having served 25 years in various managerial positions with Verizon (formerly Bell Atlantic). Mr. Southwell will be responsible for ensuring that Zoom-I-Net's services are of the highest quality and fully meet the technical and operations needs of its subscribers.

Mr. McAuley will establish the management programs for Zoom-I-Net's business office and customer service functions. He has over 20 years experience in the software and technology industries.

Mr. Neri is an expert in computer technology and ISP Operations. He is actively engaged in the computer services and consulting business. He will work with the company to ensure that the company's computer systems, including its website, function at the highest levels to ensure uninterrupted customer access and service.
